The numbers in round brackets indicate the number of ewes mated last autumn.

The numbers in square brackets indicate the number of sheep that the exhibitor can bring to the sale.

1st            2nd            3rd            4th

Class 1: Shearling Ram \_\_\_\_\_

Class 2: Ram Lamb \_\_\_\_\_

Class 3: LMI \_\_\_\_\_

Champion \_\_\_\_\_ Reserve Champion \_\_\_\_\_

## CONDITIONS OF SALE

1. All entries must be penned for inspection by 11.00 a.m.
2. The inspectors will inspect all entries and cull any sheep which, in their opinion, are not up to standard, or which have been brushed, trimmed or which have been incorrectly tattooed.
3. Sheep to be sold in Euro. Buyers will be charged a fee of 5% of the sale price.
4. No rams will be sold under €200. No opening bid less than €150.
5. Rams will be sold in the order in which they appear in the catalogue.
6. Rams in lots 1 to 5 not sold will be allowed back in the ring at the end of the Shearling Rams.
7. The Champion and Reserve Champion will be sold after the Shearling Rams and before the Ram Lambs but, if the Champion is a Shearling Ram, the owner has the option of selling him at his lot number.

# GUIDELINES FOR SELECTING A RAM ON PERFORMANCE FIGURES

1. **LMI or LMI-SR:** When selecting a ram choose one with a high LMI or LMI-SR (figures are more accurate and reliable). The LMI is the best indicator of the ram's breeding merit to produce lambs, which will have good growth rate, good muscling with not too much fat cover.

The ram lamb's EBVs for Liveweight (LWT), Muscle Depth (UMD) and Fat Depth (UFD) go to make up his LMI and indicate how much superior to the breed average he is for each of these traits.

**Superior** rams are those with an LMI or LMI-SR above 122.

2. **EBV-LWT:** If you want a ram to **increase the growth rate** of your lambs, choose one with a high **EBV-LWT**.
3. **EBV-UMD:** If you want a ram to **increase the muscling** of your lambs, choose one with a high **EBV-UMD**.
4. **EBV-UFD:** While if you want to **maintain fat cover** at a reasonable level, select a ram with an **EBV-UFD** close to 0 or which is slightly negative.
5. **Conformation:** Finally when you have selected a ram with good genetic merit for performance on the above traits, examine the ram so that he meets your requirements for **Conformation, Type and Soundness**.
